Cloud Skills	AWS (Certified) , Azure
Version Control	Git,Github,Gitlab
OS	Linux, Windows,macOS
Other Tools	Redux Toolkit, Jenkins, Slack, Docker, Postman,Jira RESTful APIs

EXPERIENCE

Software Developer
skillrank.io

Dec 2024 - Present
Delaware, USA

- Developed and deployed a cross-platform mobile application for firefighter operations, enabling real-time job tracking and automated shift management.
- Managed software development projects using Agile methodologies (Scrum, Kanban), ensuring timely delivery and effective collaboration within cross-functional teams. Successfully deployed a cross-platform mobile application for firefighter operations to both the App Store and Google Play Store, reaching over 1,000 users within the first month.
- Engineered a comprehensive web application designed to streamline the recruitment process by automating candidate assessments and evaluations.

Frotend Developer Intern
Logica Beans

May 2017 - Sept 2024
Kathmandu, Nepal

- Developed a full-featured text editor using ReactJS and TypeScript for Logica Bean's Time Management System, enhancing user productivity and content creation.
- Built a robust, multi-functional text editor within the time management platform, supporting features like formatting, auto- save, and content tagging, improving user experience and data management.

EDUCATION

Master of Computer Science, University of East London, United Kingdom   May 2026

- Developed advanced AWS expertise through AWS Academy hands-on practical labs.
- Gained skills in AI/ML development with a focus on computer vision applications.
- Worked on prompt engineering techniques for large language model (LLM) optimization.

Bachelor of Computer Science, Tribhuvan University, Nepal   2019 – 2024

- Built a personalized job recommendation system using Next.js and the Reed API.
- Implemented filtering, search, and ranking algorithms to deliver tailored job suggestions.
- Improved user engagement by increasing click-through rate (CTR) by 10%.
